- Our **Dancing Spheres Fountain** exudes calming tranquility as this remarkable piece of art spouts and spills water from craggy spheres and copper accents. It is a true modern art sculpture in its own right!
- The **Yosemite Fountain** features a tall rocky outcrop with hammered bowls that cascade one to another. Copper spills provide perfect flow as the water meanders down the front of the rockface.
- Rushing waters, from side to side, are the highlight of the **Zen Plates Fountain**. The contemporary design is light and airy while the rushing waters bring great pleasure to one's ears.
- The **Delphi Fountain** is a substantial patio fountain that provides plenty of copper spill water action for all the birds of the neighborhood to enjoy.
- Our **Triple Fluted Fountain** emulates a trumpet lily but in modern architectural form. Multiple copper spills provide glistening water action and soothing sounds for your garden.
- Three oversized lilies dominate our **Monet Fountain**. Water peacefully travels from one up-lit lily to the next, providing a peaceful aura for most any garden setting.
- The **Triple Leaf Fountain** is true to its name as water cascades forward over beautifully sculpted, giant leaves. The rush of water provides great sound while the natural leaves blend perfectly with your garden landscape.
- Organic in nature, the **Grotto Fountain** lights up on all three levels. Water rushes down its face and into the pools below. A visual treat at night, the powerful water flow gives substantial sound throughout the day as well.
- The **Matrix Fountain's** ladder design causes a rippling effect across its face and the resultant sound is almost magical. At night, this fountain lights up like no fountain we've seen before.... you'll be impressed!
- Our **Modern, Sunflower, Golden Grain and Tulip Bouquet Birdbaths** bring a great variety of motifs in a traditional birdbath design.
