

4210F3 Grotto Falling Diamonds 2pc.

1) Set basin on firm ground.

2) Place pump, with adapter, in basin. Cord loops out the back.

3) Attach tube. Place Flow Restrictor 8" from pump. Run tube up the left side of the Grotto section as you set it down.

4) Install 3-Light Kit inside base and run cord out back.

5) Prepare to attach spray bar by holding clamp at top of tube coming up out of Grotto

then inserting feed pipe of spray bar into tube

then clamping and setting bar in slots.

Now it's time to read pump and light instructions, fill with water, and start your new fountain!

IMPORTANT – WINTER CARE

Winter ice build-up can cause damage to concrete statuary.

Follow these tips to reduce winter weathering to your fountain:

- * Disconnect power to pumps and lights.
- * Remove plugs/stoppers in all fountain bowls to open drains and let all moisture out. Keep drains open throughout winter.
- * Place an absorbant material like burlap, blankets, etc. inside vases/bowls and cover all with a Henri fountain cover.
- * Don't allow snow or ice to build up on or against the concrete. Remove snow before it turns to ice. Do not use antifreeze, salt or chemical ice removers as these may damage concrete.
