

For best results, locate a suitable site for your fountain that is leveled and provides pleasing viewing angles.
 Note: Always follow local electrical codes and use a 110V GFCI protected outlet.

5750F7 - 5750F7R

1. Locate a suitable site for your Rebecca In Valencia Fountain, 7 pc. Site should be level and provide a pleasing viewing angle.
2. Locate the 6504 Pool in the center of your site. Bowl must be level.
3. Place PS850 & PS450 Pumps next to Standpipe. Slip pump cords through standpipe and pull cord out from bottom of pool. Seal cord with RS1.5 rubber stopper and corks. Corks will be removed if order AB8740 lights.
4. Connect both ADAPTER 3/4" MNPT X 1/2" BARB to both pumps. Connect to PS850 NKT1/2" X 6" Tubing on to Adapter on Pump. Use CLAMP #38 to secure tubing. Connect NKT1/2" X 6" to TEE1/2" X 3/8" X 3/8". Use CLAMP #38 to secure tubing. Connect the two NKT3/8" X 18" Tubing to the other ends of the Tee. Slip R1 Restrictors to both Tubing.
5. Tubing is supplied by connection from Spray Ring Kit inside with Spray Ring. Connect CLEAR TUBING 1/2" ID to PS450. Over lap CLEAR TUBING 3/4" ID over the CLEAR TUBING 1/2" ID. The Tubing will connect to Spray Ring.
6. Set 7310 Pedestal in center of Pool feed and measure between other side of base and the pool wall to make sure the base is centered. Feed CLEAR TUBING 1/2" ID through mouse hole from 7310 Pedestal.
7. As you place 5750 Rebecca on top of 7310 Pedestal connect both NKT3/8" X 18" Tubing to bottom of 5750 Rebecca. Secure Tubing with CLAM #30.
8. Fill pool with water. Plug pump into 110V GFCI protected outlet. Adjust Water flow with R1 Restrictors.
9. Finally, place the four 9024 Surround Sections around the fiberglass pool and align evenly.

IMPORTANT - WINTER CARE:

Do not allow water to collect and freeze in fountain bowl(s) or shell(s). Do not allow fountain pieces to sit in a pool of ice. Disassemble entire fountain and pump and store indoors during the winter season.

If you cannot store your fountain indoors during the winter season, you must at least protect it from ice collection or exposure: first, remove the statue(s) and pump, storing them inside if possible. Next, locate the drain plug on the underside of bowl(s) or shell(s). Remove the drain plug to drain any water "trapped" between the walls of the bowl(s) or shell(s). Then fill the bowl(s) or shell(s) with an absorbent material, such as burlap, blankets, etc. Finally, cover the entire fountain with a Henri Fountain Cover. Should condensation droplets form on the inside of the cover, the material will absorb them.

By following these simple and sensible precautions during the winter season, you will protect your fountain for years of beauty and enjoyment!

CAUTION: The use of Chlorine or Chlorine Bleach may damage the finish of your fountain. When cleaning your fountain, it is best to test the cleaning agent on an underside or back surface to determine the agent's suitability. We recommend the use of a mild, non-abrasive treatment, such as Henri Lime Remover and Preventer. To avoid foaming, thoroughly rinse the fountain to remove the entire cleaning agent.
